WHAT WE DO

Fundsgrowth is a unique project , tipped to have an outstanding impact in the coming years. Our uniqueness stems from our firm culture built over the decades in the space of investments, trading and very specific financial services. We are best placed to make an impact and execute our ultimate goal of providing financial solutions to individuals, families and organisations around the globe by fully capitalising on the blockchain technology, Forex trading, cryptocurrencies and other less volatile markets and ecosystems. We have the best human and material assets required to execute this huge task to the best standards and heights. Our combination of results from several markets, both volatile and non volatile goes a long way to ensure a certain level of consistency with our trading results. The volatile markets such as Forex, cryptocurrencies and the blockchain with a combined daily turnover of more than \$1 trillion is becoming increasingly profitable and dynamic. We are working on producing the best possible outcomes through these sectors.

OUR ECOSYSTEMS

The pillars of the fundsgrowth management opportunity is the Blockchain technology, Forex and crypto trading, Banking, Real estates, Physical equities and Transportation. These ecosystems consist of both volatile and non volatile markets. We will thoroughly expand on these fields through our E-learning courses to better help everyone understand how we combine our efforts to produce the best results through these fields.

OUR FIVE MAJOR ECOSYSTEMS INCLUDES THE FOLLOWING

**CRYPTOCURRENCY
TRADING**

FOREX TRADING

**FINANCIAL SERVICES
INDUSTRY**

MINING

EQUITY MARKET

A. CRYPTOCURRENCY TRADING

In essence, cryptocurrency is – as blockchain based platforms are meant to be – completely decentralised. As a financial based blockchain, that means it is not governed by any central bank or monetary authority. It is rather maintained by a peer-to-peer community computer network made up of users' machines or "nodes". If you know what BitTorrent is, the same principle applies. The current global crypto market cap is \$2.38T and hugely controlled by our Blockchain technology is responsible for 40% of our trading and investment ecosystem and results.

B. FINANCIAL SERVICES INDUSTRY

Our financial services firms provides financial services to people and corporations. This section of our ecosystem is made up of a class of financial firms including Banks, Investment houses, Lenders, Finance companies, Real estate brokers, and insurance companies. These sectors are responsible for 25% of our returns and investment activities.

C. FOREX TRADING

The foreign exchange market is a global decentralised or over-the-counter market for the trading of currencies. It includes all perspectives of buying, selling, and exchanging currencies at modern or predetermined prices. With a 12+ years of experience in this field we rely on over 50 trading experts to execute trades and produce decent daily results. It covers 18% of our ecosystem.

D. MINING

The term crypto mining means gaining cryptocurrencies by solving cryptographic equations through the use of smart computers. It involves verifying data blocks and adding transaction records to a public ledger known as Blockchain. Our blockchain technology project is fully focused on building an awesome mining rig and system that can have a decent impact on the market. We currently have a crowd-supported mining system that is able to contribute to about 12% of our ecosystem. We hope for this figure to rise with time.

E. EQUITY MARKET

An equity market is a market where shares of businesses are published and traded, either through exchanges or over-the-counter markets. Also a section of the stock market, it is one of the most vital areas of a market economy and is responsible for about 5% of our ecosystem and results.

COMPANY EXECUTIVES AND LEADERS

Fundsgrowth is under the executive care of the fundsgrowth Global Trade Board of Directors who are strongly working behind the scenes to push us towards our goals.

CEO:
Richard Wagner

FOREX CONSULTANT:
Lisa Anderson

**CHIEF INVESTMENT
MANAGER:**
John Atkins

Thanks to our executive team and leaders we are taking positive strides towards our goals and doing this in our own unique way and style.

Our goal is to form the largest blockchain and crypto trade bank in the world and through our best results dominate over 10% of the global blockchain market in the coming years. We aim to help over 10% of the global population to have simple answers to their financial questions. Through our unique daily results we seek to provide our global partners with a fair share of the market profits and most importantly help you grow your portfolios to decent standards.

We intend to develop the largest blockchain community in the globe and have the possibility of transforming millions of lives through our project, both financially and educationally. We will be launching several educative projects through our academy in time.

WITHDRAWAL

fundsgrowth makes payment directly to your registered wallet address whenever you make a withdrawal request. All payments are processed immediately after your request is submitted. Withdraw plans and procedures.

PLAN 1

DAILY WITHDRAWAL

\$50 MINIMUM

0% Charges

No Withdrawal of Capital for First 30days.

Note: NO WITHDRAWAL FEE

WITHDRAWAL

fundsgrowth makes payment directly to your registered wallet address whenever you make a withdrawal request. All payments are processed immediately after your request is submitted. Withdraw plans and procedures.

PLAN 2, 3 & 4 (TEMPORARY UPDATE)

DAILY WITHDRAWAL

WEEKLY LIMITS BASED ON ACCOUNT POINTS

20% of weekly output- Normal standard

35% of weekly output- 15 AD points

50% of weekly output- 30 AD points

70% of weekly output - 50 AD points

100% of weekly output - 70 AD points

\$50 minimum

3% withdraw charges

Note:

AD means Affiliate deposits points. If you can build your affiliate network to over these AD points then you can qualify for bigger weekly payouts. 1 AD point = \$1000 The reasons for the advancement is the higher returns which the company is offering daily on plans B to D and it will leave you the options to earn more than your accumulated deposits once your infinite contract expires. And this will be the case for a long years to come leaders summit next year.

REINVESTMENT

fundsgrowth allows for continuous turnover of investment funds but we have some restrictions placed on this. We intend to build a solid community of passionate and true investors and traders as we are not running a quick scheme project. So to reinvest you have to follow the following plans and guidelines

PLAN 1

- You can reinvest a package
- You can only reinvest a particular deposit for three cycles.
- After the third recycle you must upgrade by 25% of your last package to upgrade to the next package.
- You cannot withdraw at the third recycle until you upgrade
- You can withdraw after your second recycle and can easily make an upgrade at this point too
- You can freely upgrade your package at a point.

PLAN 2, 3, 4

INFINITY PLAN

- Infinity plan automated rebuy.
- 50% of your balance available for withdrawal at the end of 200 days infinity cycle. You can top up at any point.
-

RESIDUAL INCOME

Our plan is to offer everyone a possibility of building their portfolios long into the future.

We intend to offer traders and investors a different outlook on portfolio building.

This plan is meant to give investors the option of building their portfolio for life and be able to transfer even to the next generation. It's a continuity plan and is designed to turnover your trading packages long into the future.

This option is readily available for plans B to D. You can make a big plan for yourself and build your portfolio the best way you deem fit.

INFINITY PLAN : HOW IT WORKS

1. An Infinity cycle lasts for 200 days

Plan B. 10 cycles

Plan C. 6 cycles

Plan D. 4 cycles

2. You can withdraw daily but with some weekly limits, depending on the capacity of your account and AD points.

3. Withdrawal options for infinity plans are activated based on percentage points which is calculated from the affiliate strength of each account. That is the investment capacity of your referrals.

4. For plans B to D. You can make a weekly minimum withdrawal of 10% of your profits and a maximum weekly withdrawal of 100% of your profits but depends on your AD points.

5. You can only withdraw 20% of your available balance at once at the end of each plan cycle and reinvest the rest. No need to add more funds, just keep building with up to 80% at the end of each cycle. You can build with 100% of your available balance if you wish to. So at the end of each Cycle, you can have a residual capital of up to 80% running over. You can also be able to withdraw more but it depends on your AD points.

6. The infinity plan is activated from plans B to C

7. You can keep upgrading and compounding your profits from plan A to qualify for the infinity plan which is plans B and C

8. At the end of each infinity plan, 200 days, you can withdraw 50% of your total balance. This system ensures that by the end of your infinity plan, you can safely withdraw profits even above your accumulated deposits and also have up to 50% capital to run over. Providing a balanced financial platform for the company to run on and even a better earning power for investor.

9. You can also top up on your infinity plans even if they're already running. Your top up deposit will be added to your Running balance

10. You're entitled to make a 25% upgrade at each half interval of the premium plan.

11. With the infinity plan you're able to withdraw 100% of your investment capital after 4 cycles if you wish. (200 days maximum)

CAREER RANKS

Build your network and stand the chance to achieve career ranks. There are 4 achievable ranks and while you build your portfolio you have a chance to refer the opportunity to your friends and gain bonuses through our affiliate programs. Depending on how well you're able to duplicate your system you'll be able to reach the career ranks.
